

Water dosing device and mixing time control

## Mixing Device RWU-8

Order number: 12320 - 12322 - 12323

The add-on mixing device RWU-8 can be used with the spiral pumps SP-10F (photo) and SP-14F. As the powerful motor is located below, the mixing container can be filled from the top. Mixing device RWU-8 is available with water dosing unit and with mixing time control (optionally).

### Technical data

Supply	400 V / 16 A
Motor power	3 kW
Speed	1500 rpm
Filling height	120 cm
Weight	50 kg

### Advantages

- High mixing capacity
- Exchangeable mixing tool (according to the material)
- Powerful motor 3 kW
- Mixing container empties completely
- Easy cleaning and operation

### Delivery range 1 - 12320

**RWU-8:** 50 litre material container, sack opener, special mixing disc, safety switch-off, outlet device and ON/OFF switch

### Delivery range 2 - 12322

**RWU-8:** 50 litre material container, sack opener, special mixing disc, safety switch-off, outlet device, ON/OFF switch and water dosing device

### Delivery range 3 - 12323

**RWU-8:** 50 litre material container, sack opener, special mixing disc, safety switch-off, outlet device, ON/OFF switch, water dosing device and mixing time control

### Material to be used

- Injection mortar
- Cement paste
- Cement suspension
- Sealing slurries
